

## Step through trail bike

## The Ascent: Advantages

- The Ascent has the most powerful motor controller in its class (18 amp, 9 mosfet, intelligent sine wave for you geeks) and it is from Bafang, Asia's top brand in ebike electrics. Our customers regularly tell us that our ebikes outperform others, on the road and on the trails;
- The thumb throttle on the Ascent will deliver full power, regardless of what pedal assist setting you are on. So if you're on the lowest level of pedal assist, but need a squirt of full power, simply push the throttle to get immediate maximum power;
- The Ascent offers 2 battery size options: 468 watt-hour for those who will not cover more than 40kms in a day of trail riding; 576 watt-hour for those who intend to do longer rides.
- We have a nationwide service network, spare parts available in NZ, and a 2 year warranty on the electrics, plus 6 years on the frame and 1 year on other parts.
- MeloYelo was founded to help support the EVolocity electric vehicle programme in schools. So, when you buy from MeloYelo, you Go Well AND Do Good.
