

Bootee

20" folding

The Bootee

Available in red or charcoal, the Bootee folds to fit in the boot of your car. Like all of our bikes, the electric system – motor, controller, waterproof cabling and display – all come from Asia's most trusted name in e-bike electrics: Bafang. You won't find an integrated system like this, designed together to work together and guaranteed together, on any other ebike in this price range. We have a nationwide service network, spare parts available in NZ, and a 2 year warranty on the electrics, plus 6 years on the frame and 1 year on other parts.

Supporting engineering education in schools

MeloYelo was founded by the founder of EVelocity – a charity which runs a programme in NZ high schools in which teams of students design, build and compete in electric vehicles. It's about getting more kiwi kids interested in engineering, while also introducing them to the advantages of electric vehicles.

When you purchase from MeloYelo, you go well and do good.

Go Well. Do Good.
