

Townee

26" urban

The Townee: Advantages

- Clean looks. The battery is integrated into the frame, so you don't even know it's there
- The thumb throttle on the Townee will deliver full power, regardless of what pedal assist setting you are on. So if you're on the lowest level of pedal assist, but need a squirt of full power, simply push the throttle to get immediate maximum power
- The Townee comes with a super comfortable gel saddle. And, for a small additional cost, we can add a suspension seat post for an even smoother ride

- The balloon tyres also add comfort to your ride, whether you're in town or out on the trail
- The height of the step-through is lower than most
- We have a nationwide service network, spare parts available in NZ, and a 2 year warranty on the electrics, plus 6 years on the frame and 1 year on other parts
- MeloYelo was founded to help support the EVolocity electric vehicle programme in schools. So, when you buy from MeloYelo, you Go Well AND Do Good.

Go Well, Do Good.
