

TRANZIT MD: RAIL TRAIL, TIMBER TRAIL OR YOUR LOCAL CAFÉ.

The Tranzit MD is a mid-drive crossover bike, meaning it is equally at home around town and on the trails. The Maxxis Crossmark tyres fly on paved surfaces, yet have a tread pattern that grabs wet roots and rocks. The 522 watt-hour battery combined with mid-motor efficiency delivers ample range but can be upgraded to a massive 630 watt-hours. The Tektro mechanical disk brakes with 180mm rotors are powerful and safe. Suntour suspension, Shimano Altus 8 speed gearing, 5 levels of battery assist and an enhanced motor controller make the Tranzit MD a joy to ride. The swept back handlebars deliver rider comfort, but can be exchanged for straight, mountain bike-style handlebars if preferred.

- Engineered by older kiwis, for older kiwis;
- Nationwide sales & service network;
- Spare parts available in NZ;
- 2 year warranty on the electrics, plus 6 years on the frame and 1 year on other parts;
