Townee 2.0

Comfort. Balance. Style.

**THUMB THROTTLE FOR FULL POWER
WHEN YOU NEED IT.**

The Townee 2.0 offers a design refresh of our historically popular Townee model. We've focused on comfort, range and style, as well as ease of use. Different saddle options are available, the swept-back handlebars allow for an upright riding position and the front suspension smooths out bumps in the road. The larger 504 watt-hour battery will get you everywhere you want to go around town with ease. And, with our new styling and colour options, you're going to look good getting there. Available in arctic silver or mellow yellow.
