

Melo **YELO** **E-BIKES**

Superlite

Weighing in at just 22kgs

GO ANYWHERE. WITH EXCELLENT HILL CLIMBING
TORQUE AND POWER.

The Superlite has been designed and engineered by MeloYelo, and is the culmination of a great deal of research into the needs of Kiwi e-bike riders. Some customers have told us that they're happy to pay a bit more to get the lightest possible e-bike, but that it must be suitable for riding on off-road trails. The Superlite ticks all the boxes. At 22kg it is no heavier than a carbon fibre ebike, yet 4kgs lighter than our other models. It has the high-torque Bafang M420 motor, a 10 speed Shimano Deore gear set, light yet strong air forks that glide over bumps, hydraulic brakes, and a thumb throttle that gives you power boost when you need it, once you're above 6km/hour. All of this in a step-through frame.

- Engineered by kiwis, for kiwis;
- Nationwide sales & service network;
- Spare parts available in NZ;
- 2 year warranty on the electrics, plus 6 years on the frame and 1 year on other parts;
- Value for money. We aim to deliver the best performing and most reliable ebikes in New Zealand;
- MeloYelo was founded to help support the EVelocity electric vehicle programme in schools. So, when you buy from MeloYelo, you Go Well AND Do Good.
